**B. INSTALL LEVELING LEGS**

**Leveling your dryer correctly will reduce operating noise and provide improved drying performance.**

**STEP 1.** Take two of the cardboard corners from the carton. Place them on the floor in back of the dryer.

**STEP 2.** Firmly grasp the body of the dryer (not the top or console panel). Gently lay dryer on the cardboard corners.

**STEP 3.** With one of the legs in hand, check the ridges for a diamond marking.

**STEP 4.** Start to screw the legs into the holes by hand. Use a wrench to finish turning the legs until diamond marking is no longer visible. This is when we recommend you start checking the dryer for levelness. Further adjustment may be necessary.

**STEP 5.** Stand the dryer up and move it close to its final location. Leave enough room to connect the exhaust vent.

**STEP 6.** Check levelness of dryer by placing a level on top of the dryer, first side-to-side; then front-to-back.

**STEP 7.** If dryer is not level, prop the dryer up using two stacked cardboard corner posts. Use a wrench to adjust the legs up or down.

**NOTE:** It may be necessary to level the dryer again after it is moved into its final position.

I'm not in the world IThe data (for example, the data that the tables went to the tables) will be systematically eliminated from Google servers. Will you have any way to recover my fusion data from Google Tables in the future? You could download your table data through Google Takeout until March 3, 2020. After that, all tables of merger tables will be permanently and irrevocably eliminated. Why were the Google fuse tables suspended? Please consult our blog for more information.
